

# Water Hardness

Hard water is hard to live it and in Ireland it is a common problem. It scales up hot water tanks, pipes, boilers, washing machines, dishwashers and kettles; reduces their efficiency and life expectancy, and finally increases your heating bill. It's hard on your skin, hair, clothing and wallet.

## Problems Caused by Water Hardness

- Reduced efficiency of plumbed appliances
- Reduced efficiency in heating system
- Reduced working life of plumbed electrical appliances
- Hard on skin, hair and clothes

## Solution: Water Softeners

A water softener consists of a unit that removes calcium and magnesium from the water before it enters your home.

## Benefits of Water Softeners

- The water coming into your home is noticeably 'softer'
- Save money on heating bills
- Your heating system will be 40% more efficient
- Save money on soaps, detergents and cleaning products
- Your appliances will no longer be clogged with limescale.
